Style Journey **Step 3**

for both men and women

style essence analysis

Your face holds the key to your most beautiful style.

The face is the primary point of visual focus in human interaction, so naturally, it's the most important part of our bodies to take into account when choosing what to wear.

While the Body Geometry session (Step 4 of the Style Journey) will teach you how to dress for your unique bodily proportions, dressing for your face will have the biggest impact on you feeling like your most attractive self. Clothing elements near the face directly affect how your features and expressions are perceived.

It's the secret sauce that very few people know about.

Includes:

- I conduct a pre-session style essence analysis using a photo of your face.
- 2 hour in-person session where you try on outfits I've curated for you so we can confirm your unique style essence blend.
- In-session education throughout outfit try-ons. This is a super insightful session! Not to mention super duper fun.
- Comprehensive style essence blend report (pdf) providing a wealth of useful, practical suggestions on which types of clothing suit you best.

Style Journey **Step 4**

for both men and women

Body Geometry

For this session there will be no in-person meeting.

I will be using the photos I strategically took during our previous session (Style Journey Step 3) to conduct a thorough in-depth analysis of the the lines, proportions and silhouettes that suit your unique body type best.

Humans are very diverse and it is rare for someone to fall perfectly into one of the overly generalised body categories (yes, even into dear old Kibbe's system, if you are familiar with him). I use a combination of useful body typing systems and I look at your body in sections and as a unified whole to determine what is necessary in terms of clothing for the most visually pleasing results.

You'll understand which parts of your body are your greatest assets and how to optimise for that, and which body parts to accommodate for and how to do that.

Includes:

- A comprehensive, bespoke report discussing the outfits you tried on during our previous session with comments on each outfit to teach you what worked well, what didn't, and why. I'll provide my recommendations on how to improve those outfits and dress in a way that is objectively visually pleasing and honours your unique lines and proportions. All of this will be done while taking into account and staying within your Style Essence blend (determined in previous session).
