

Style Journey **Step 5**

for both men and women

The Grand Capsule

The greatest session of them all! A few weeks before the session, you'll provide me a shopping budget as well as photos of items already in your wardrobe that I can use to incorporate into a gorgeous capsule wardrobe for you that will make your closet your happy place.

In my preparation, I'll take into account your colour analysis results, your core values, your style essence blend and your body type and I'll buy and curate outfits for you (incl. shoes and accessories) that will maximize everything that makes you unique and wonderful.

In the session I'll showcase your wonderful new capsule wardrobe to you and show you how to style it. I'll also take photos of you in multiple variations of outfits so that you can use these for inspiration on the mornings that you need some mental ease.

Includes:

- 3 hour in-person session in a safe, peaceful space (not the shops!) where you try on your entire new capsule wardrobe that I bought and curated for you.
- You'll take your entire new capsule wardrobe home with you.
- For men, this package will include a haircut by an amazing barber.
- Beautiful photos of you in your new pieces styled multiple different ways.

\$1500 (excludes shopping budget)

Shopping budget minimum of \$1000

only available after steps 1-4
